Anna Symonenko
Flix,
Friedenheimer Brücke 16
80639 München
Germany.

Dear Anna,

I am writing to express my interest in the Senior PHP Developer position at your company. With 7+ years of experience in PHP and a solid knowledge of Symfony, I am confident in my ability to contribute to your team and help drive success. I am humble and curious to learn, teach stuff and like to be more humanatic in my life. These softs skills have driven me immensely so far in the software world.

I have started from a small scale company and worked for medium, large scale companies throughout my career successfully which boosted my confidence to understand the environment and adapt to it so quickly. I have extensive experience working with a bunch of clients in several countries such as France, Australia, US, India and Sri lanka with various domains. Although I am a Symfony developer I have worked additionally in other roles such as Team Lead, QA Engineer, Automation Test Writer, Devops.

In addition, I have a strong understanding of relational databases, specifically MySQL and have experience with TDD, unit testing using PHPUnit and automation testing using Robot Framework. My background in Software development, my good understanding of system design and software architecture, will allow me to bring a strong technical perspective to your team.

I am fluent in English and have a Bachelor of Information Technology, University of Colombo Sri Lanka, which has provided me with the education and experience to excel in this role. Additionally, I am eager to grow my skill set and learn more about MongoDB, Redis, Kafka, SQS, and RabbitMQ.

I look forward to the opportunity to further discuss my qualifications and how I can contribute to your team as a Senior PHP Developer. Thank you for considering my application.

Best Regards,

Viraj Amarasinghe
Senior Software Engineer
